ProjectsDescription:

As a member of testing team at Cognizant, I have worked in an internal project of Restaurant domain whose clients are all over the world like KFC, Pizza Hut, Yum, Papa Johns, and ABRH.

Validated different ecommerce web sites including online food ordering sites, admin sites, call center application and mobile apps.

Roles and Responsibilities:

1. Performed requirement feasibility analysis for user stories and identified test scenarios/test objectives
2. Contributed to the preparation of the defect management, communication and Test scope sections of the test plan
3. Identified end-to-end test cases, regression suites and system test cases
4. Involved in Test data identification and gathering
5. Documented test cases and performed peer reviews on the team mate's work
6. Responsible for Smoke and Sanity test
7. Performed elaborate functional testing for Admin module along with exploratory testing of the entire site. Also worked on test case maintenance when necessary
8. Performed browser compatibility testing on browsers Chrome and Mozilla Firefox
9. Participated in Daily scrum meetings
10. Used JIRA for issue tracking
11. Created a Traceability Matrix to ensure 100% test coverage
12. Prepared and sent daily reports and over all Sprint report
13. Collection of metrics – test execution and defect metrics
14. Performed Aloha POS testing
15. Actively participated in smoke, functional and ad-hoc testing during SIT phase
16. Actively participated in production deployment and business verification testing
17. Worked with the Development Team for understanding the details of Functional and Non-Functional Requirement on Web/Online applications
18. Performed validation on multi-lingual sites for markets like Japan, Thailand, Chile, Spain, Canada, etc.
